## FUND MANAGER'S COMMENTS

Stock markets continued their progression over the month, with an increase of + 1.84% for the S&P 500, + 6.03% for the Eurostoxx 50 and + 6.96% for the MSCI Emerging Markets.

The financial markets were buoyed by government stimulus plans as well as by the accommodating policies of central banks like the ECB which increased the amount of its asset purchases from EUR 750 billion to EUR 1350 billion in the Pandemic Emergency Purchase Program. The good economic figures, better than anticipated by consensus, also allowed the markets to progress. Thus, the final manufacturing PMI for June in the United States stands at 49.8 after reaching 36 in April knowing that a level above 50 is synonymous with growth. The trend is the same in Europe. In China, the first country hit by the crisis, levels are again above 50.

In this environment, the Archea - Spectrum fund increased by +0.35% over the month. Some arbitrages were carried out in order to increase the equity weighting. Thus, the **Allianz Strategy 50** and **Sextant Grand Large** funds were sold. The reasons for these sales are a too low level of investment for the former and a questionable performance for the latter. In return, we increased the allocation to **The Blue Fund** and **Acatis Gané Value Event**, to reach 15% and 10% of the portfolio respectively.
