

**FUND MANAGER'S COMMENTS**

All European indices ended October in the red., This, due to the resurgence of COVID-19, especially in Europe, the approach of US elections and profit taking. Against this backdrop, the Eurostoxx 50 (SX5P) index fell 7.01% and our fund fell 5.92%.

During this month of October, we sold our holdings of *AMS* and *Siemens Energy* and reduced our position in *Vinci*. With the proceeds of these sales, we have strengthened our investments in *SAP*, *Shop Apotheke Europe* and *Siemens*.

**Outlook:** We remain constructive on equities in the coming months given the massive support from central banks. The current corrective movement is not expected to accelerate further and could rather offer one-time buying opportunities in the coming weeks. We must remain diversified in order to take advantage of a possible rebound in the market in the event of a clear victory by Joe Biden and without the result being contested by Donald Trump. In these circumstances, technology, healthcare, and green shares are preferable. Also, we must not forget shares in the luxury, construction, distribution, and the food industry.
