Additional information for investors in Germany

The Paying and Information Agent in Germany is MARCARD, STEIN & CO AG, Ballindamm 36, DE-20095 Hamburg.

A list of changes incurred to the securities' portfolio can be obtained free of charge from the Paying and Information Agent.

Requests for redemption or conversion of shares may be submitted to the Paying and Information Agent. All payments (redemption proceeds, distributions and other payments) can be conducted through the Paying and Information Agent.

Articles of Incorporation, prospectus and Key Investor Information Documents, semi-annual and annual reports, subscription and redemption prices as well as the documents listed below will be available in electronic format and free of charge from the Paying and Information Agent:

- Depositary Agreement;
- Central Administration Agent Agreement;
- Investment Management Agreement;
- Investment Adviser Agreement.

The subscription and redemption prices are published electronically on www.fundinfo.com. Any notices to shareholders will be published in the "Börsen-Zeitung".

Report on activities of the Board of Directors

Dear investors,

At the end of the last financial year, the SICAV offered the following sub-funds for subscription:

Name of the sub-fund(s)	Net assets (rounded to the nearest million) of the sub-funds at the end of the financial year		
Archea Fund – Patrimoine	EUR	50	million
Archea Fund - Nordam	USD	40	million
Archea Fund – Europe	EUR	128	million
Archea Fund – Bond Selection	EUR	40	million
Archea Fund – Globiq	EUR	13	million
Archea Fund – Spectrum	EUR	43	million
Archea Fund – Asia Innovators	USD	8	million

Over the past financial year, the SICAV has launch a new Sub-Fund Archea Fund –Causality Global. As at 31/12/2022 the Sub-Fund is not yet active.

At the end of the last financial year, the net assets of the SICAV (converted into EUR) amounted to approximately EUR 320 million compared to approximately EUR 399 million at the end of the previous financial year. This represents a decrease of approximately -20%.

In general, the evolution of the SICAV's overall net assets is mainly due to the performance of the Sub-Funds over the year. Nevertheless, the Archea Fund – Globiq Sub-Fund has seen its number of units decrease over the first and fourth quarters of 2022. During the fourth quarter, the Archea Fund – Europe and Archea – Spectrum Sub-Funds also experienced redemptions.

Please read the Portfolio Managers' Report for general information on the financial markets and for further information on the implementation of the investment strategy of the SICAV's Sub-Funds.

During the past financial year, there have been no changes to the SICAV's Board of Directors.

The prospectus of the SICAV valid on the date of this report is dated 21/09/2022.

Finally, we would like to take this opportunity to thank our investors for their continued trust in the SICAV.

Luxembourg, 2nd February 2023

The Board of Directors

Note: The information in this report represents historical data and is not an indication of future results.

Report of the Management Company

ARCHEA FUND - PATRIMOINE

During 2022, the (B1) EUR units posted a negative performance of -22.49% and the (B2) units declined by -26.10%.

2022 has been one of the most challenging market environments since the last global financial crisis in 2008. After two years marked by an unprecedented health crisis, 2022 was supposed to pave the way for a return to a certain degree of normality. However, Putin's military intervention in Ukraine has initiated a war between one of the world's major commodity producers and the West. The conflict led to widespread upward pressure on energy and commodity prices at a time when the strong recovery in household demand, after the various lockdowns and disruptions in supply chains, continued to affect production for many companies. The consequences of high energy prices have been significant for European companies, which have seen their electricity or gas bills increase tenfold.

The magnitude of the sharp surge in inflation, which was virtually non-existent for more than fifteen years, surprised many. The inflation rate exceeded 9% in the eurozone and the United States and forced central banks to abandon their policies of zero interest rates and abundant liquidity, leading to the largest increase in the Fed's rates since 1994. The hikes of 75 basis point initiated by an increasingly restrictive Fed, fearful of an overheating economy and an overly tight labour market, and has raised doubts on the markets about the central bank's ability to curb inflation without pushing the economy into recession.

Faced with this new post-Covid-19 uncertainty, investors preferred to turn to less policy-sensitive assets. Thus, they opted to dump equities in the absence of a Fed pivot on the horizon. The strong downward pressure came at the expense of growth companies, which have the highest expectations and the highest valuations, exposed to technology and discretionary goods.

Valuation multiples have contracted to 17x in the US compared to a historical average of 16x and to 12x in Europe, from an average of 14x (since 2000).

In 2023, rising interest rates remain a drag on most asset returns, and uncertainty will affect equity valuations given the risks of recession. In the US, the Fed may ease the pace of monetary tightening, while the ECB will maintain a more aggressive stance in the face of persistently high inflation, despite the slight fall in gas prices. However, there are a number of positive developments in 2023: the energy crisis is under control, inflation is easing, the economy is resilient and China is reopening. From a macroeconomic point of view, the extreme risks have been factored in by the markets and diminished further with the reopening of China, despite the questionable policies of Xi Jinping. The markets have also prepared for an erosion of corporate margins, and the collapse in profits may not play out. In conclusion, the prevailing pessimism about risk assets could be partly lifted during the course of 2023.

In 2022, the dollar strengthened against all currencies, and consequently the euro weakened by -5.5%. The CHF strengthened against the euro +4.6%. Swiss securities accounted for 54.4% of the sub-fund at the end of December 2022, eurozone securities represented 28.1% and North American securities accounted for 17%. Liquid assets amounted to 0.5%. During the year, the manager increased the weighting in Switzerland by +2.60% and in Europe by +1.91%. In the US, the weighting was reduced by -4.52%. The level of liquidity remained at 0.5%.

Report on activities of the Board of Directors (continued)

ARCHEA FUND - NORDAM

The fund ended the year with a decline of -29.62%.

2022, in particular the first half of the year, proved to be a difficult year for all asset classes. We started the year full of confidence and optimistic. The pandemic was still with us, but at least people were able to move freely, without restrictions. However, the unthinkable soon reared its ugly head: a war in Europe! Russia invaded Ukraine on 24 February, in a world that was just beginning to recover from the pandemic and where supply chains were not yet fully restored. The picture suddenly became darker. Besides the tragic fact that Europe was at war, it became very clear that the old continent was heavily dependent on Russian oil and gas. In a matter of days, Europe was confronted with the biggest energy crisis of the last decades. In 2022, we moved from a highly accommodating US central bank (Fed) policy to an anti-inflationary policy that led to a state of panic in the form of rate hikes. In fact, after insisting that inflation was transitory, 75 basis point hikes became the new norm. In the end, 425 basis points of rate hikes and the reduction of the Fed's balance sheet had a significant impact on inflation and demand. However, this clearly put immense pressure on the S&P500 index, which lost \$11 trillion in market capitalisation at its lowest point. The mention of a potential central bank pivot has become the hottest topic among investors. As long as the labour market remains tight, wage growth will make it difficult for the Fed to bring inflation down to 2%.

The consensus of analysts for 2023 can be summarised in a few words: the stock market is expected to fall initially in anticipation of a recession, and then recover as the outlook improves towards 2024. In other words, few strategists are optimistic about the first half of 2023, and most expect the S&P500 to be at similar levels 12 months from now. Nevertheless, the world's two largest economies are enjoying significant short-term tailwinds. In fact, the US is currently experiencing a real increase in revenues as cost pressures ease and China re-opens its doors to global trade. Meanwhile, a warm winter could help Europe to avoid a recession. In fact, there are many factors that could push stocks higher in the short term. The resilience of the labour market and consumption supports the soft-landing scenario for the economy and offers some protection against the risks of a fall in corporate profits.

ARCHEA FUND - EUROPE

The sub-fund ended the year with a decline of -11.41% for the (B1) units and -11.62% for the (J1) units. The Stoxx Europe 600 index (SXXP) fell by 13.06%.

You have to go back to 2008 to find a year as disappointing as 2022 for the markets! However, 2022 had started positively, but the Russian invasion of Ukraine on 24 February pushed energy and commodity prices and thus inflation to new heights. At its peak, inflation reached 9.1% in the US and 9.2% in the EU. Brent crude oil approached USD 140 a barrel and the FED began its 0.25% cycle of rate hikes in March. The second quarter saw the first signs of a contraction in growth, a strict lockdown of the Chinese economy, the strengthening of sanctions against Russia and the second and third rate hikes by the FED of 0.50% and 0.75% respectively. As a result, the markets corrected sharply again. The third quarter saw the ECB raise its key interest rates by 0.50% and the Fed by 1.5%. Stock market indices rose in July, only to fall again in August and September. Finally, we witnessed a positive October followed by a superb November – an end-of-year rally with a month to spare! In December, Beijing made a U-turn in its health policy by relaxing and then abandoning its zero-Covid policy. Finally, the FED and the ECB ended 2022 with further monetary tightening of 0.5% each. The autumn rally limited the damage experienced by the indices.

Report on activities of the Board of Directors (continued)

In sectoral terms, the big losers in 2022 were technology, the automotive industry, capital goods and the banking sector. The most successful sectors were the environment, aerospace and oil.

The outlook for 2023 is brighter. With signs of disinflation in the US and China's decisions to drop travel restrictions from January onwards, investors took heart. However, investors should err on the side of caution and opt for defensive and value stocks as well as quality, high dividend stocks over the medium term. We will have to wait for the markets to normalise before returning to growth stocks.

ARCHEA FUND - BOND SELECTION

2022 was a difficult year for markets in general and for the bond class in particular. Against this backdrop, the sub-fund posted a decline of -12.44% for the (B1) units and -14.57% for the (A1) units, compared with -14.17% for the bond index (Iboxx Euro Corporates Overall Total Return).

The year will be remembered for inflation soaring to unprecedented levels and rates returning to positive territory on several markets. During 2022, prices of hybrid corporate bond fell sharply (total return of -15%) due to rising swap rates (five-year EUR swap +3.24%) and widening credit spreads (+185 basis points). Despite an increase in the cost of capital (with the index yield rising from 2% to 8%), most borrowers maintained their commitments to the hybrid debt by repaying the instruments on their first call date. The recovery of the credit markets at the end of the year gave bond investors a chance to catch their breath. Following nine months of weakness in the bond segment in 2022, the momentum has returned to the bond class. The high correlation between bonds and equities should soon end, as bonds offer high returns. The main culprit for this high correlation is inflation, which has caused interest rates to rise sharply, leading to prices to fall. As soon as inflation weakens again, the negative correlation between stocks and bonds will return and bonds will regain their defensive properties. The tightening of interest rates by central banks is already priced in. However, there is no monetary tightening yet, as the ECB continues to reinvest the full proceeds of its asset purchases for an extended period. However, financial conditions have already started to tighten. Central banks are expected to hold back as inflationary pressures ease and the growth outlook weakens.

In 2022, we remained focused on short to medium term maturities and high-yield bonds capable of generating high total returns over time. The global correction in equity and credit markets has led to a major revaluation of bank subordinated debt. In terms of spreads, the valuations of contingent convertible instruments (CoCos) have also increased significantly since the beginning of the year and are now close to their five-year highs, if we exclude the peak that occurred during the outbreak of the pandemic in March 2020. Although macroeconomic and geopolitical headwinds persist, we believe that a considerable amount of uncertainty is already built into the valuation of bonds of this type. In the fund, we prefer high-coupon AT1 bonds of large European banks with a strong potential for coupon upgrades. Indeed, in our view, high coupons (6 to 8%) with strong upside revisions (450-600 bps) will outperform lower coupon bonds, given the yield differential and the probability of being called in.

For 2023, we see enticing opportunities for the bond class. Inflation will slow as energy prices fall and supply chain disruptions will gradually disappear as Chinese health restrictions end. In the current environment, corporate bonds offer an attractive return potential. Company fundamentals appear to be relatively sound, with little change in revenue and profit growth during the year, despite an economic slowdown which has already taken hold. We expect a relatively moderate recession in Europe.

Report on activities of the Board of Directors (continued)

ARCHEA FUND - GLOBIQ

In 2022, the sub-fund fell by 18.86%.

Stock markets posted their biggest annual decline since the 2008 global financial crisis. Even the "traditional" end-of-year rally did not take place and stocks were unable to maintain the positive momentum of November. 2022 was marked by high volatility as investors faced events such as rising interest rates to curb high inflation, recession fears, Russia's invasion of Ukraine, the resurgence of Covid-19 in China and the energy crisis. These concerns led to a stock market plunge in mega-cap technology companies, while valuations of energy companies soared.

Against this backdrop, the strategy of the fund has been to create pockets of 20% cash and 20% precious metals, i.e. a very defensive allocation of 40%, while keeping 60% in diversified value and growth stocks worldwide. On the other hand, the fund has benefited from the rise of the dollar through its investments.

During the year, the fund was overweight in US large caps, value stocks and Japanese equities. On the other hand, we remained neutral on UK and European equity allocations.

Volatility is expected to continue on equity markets in 2023. However, inflation is expected to fall, potentially pushing central banks to postpone their rate hikes following the aggressive moves in 2022.

ARCHEA FUND - SPECTRUM

Over the year, the sub-fund fell by 13.59% for (B1) units and 12.86% for (BI) units.

The past year was again largely marked by persistent inflation and the consequent rate rise by central banks. While the Covid-19 pandemic had much less of an impact on the economy than in 2020 and 2021, the key event of 2022 was undoubtedly the Russian invasion of Ukraine. This war has caused energy prices to soar, driving inflation to levels not seen for over forty years. Faced with this surge in prices, central banks had no choice but to raise rates. And they did not hesitate to do so. The hikes have been severe which will have a negative influence on equity markets - in particular growth stocks - and bond markets. Consumer, technology and real estate sectors were particularly affected. The big winner in 2022 was the energy sector, which outperformed all other equity sectors. In 2022, the MSCI Energy Index rose by an impressive +55.1%. Faced with the resurgence of Covid-19 variants in China, the Beijing government reintroduced its zero-Covid policy, the effectiveness of which remains to be proven. Many sectors have been closed. This had a negative impact on the production of cheap food and continued to fuel inflation. Towards the end of the year, following numerous riots in several Chinese cities, Beijing loosened the screw on its overly restrictive zero-Covid policy. This meant the reopening of China and the beginning of an upturn in the equity markets. On the bond side, European bonds in particular suffered. Some dollar bonds performed less badly. Nevertheless, 2022 will remain one of the worst years for bonds. In this very gloomy environment, the fund has kept a healthy portion of passive management in order to keep costs under control. A liquidity segment has even been created to limit the negative impact of the equity and bond markets. With the rise in interest rates, investing in money market funds became attractive again.

Report on activities of the Board of Directors (continued)

ARCHEA FUND - ASIA INNOVATORS

Over the year, the fund posted a performance of -29.32%.

Stock markets posted their biggest annual decline since the 2008 global financial crisis. 2022 was marked by high volatility as investors faced events such as rising interest rates to curb high inflation, recession fears, Russia's invasion of Ukraine and the energy crisis.

The Asian stock market also had a difficult year due to the zero-Covid policy in China, resulting in lower economic growth, a higher dollar effect on the region's currencies and high inflation. Specifically, China's manufacturing, services and real estate sectors all experienced a sharp slowdown in the fourth quarter, in an economic environment still affected by the restrictions in place following Covid-19. In addition, India's unemployment rate rose to a 16-month high of 8.3% in December as the economy slowed and failed to fill the expanding workforce.

The IMF Managing Director warned that the global economy faces "a tough year, tougher than the year we leave behind. Why was this? Because the three big economies – US, China and EU – are all slowing down simultaneously".

The sub-fund suffered mainly from China's zero-Covid policy, which kept the nation in a state of permanent lockdown. That said, we are optimistic about the region's stock market performance in 2023 against a backdrop of a weaker dollar, falling inflation and the appointment of China's new foreign minister who aims to normalise Sino-US relations.

Audit report

To the Shareholders of ARCHEA FUND

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of ARCHEA FUND (the "Fund") and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2022:
- the statement of investments and other net assets as at 31 December 2022;
- the combined statement of operations and other changes in net assets for the Fund and the statement of operations and other changes in net assets for the sub-fund for the year then ended;
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Annual returns were calculated for the last 3 consecutive financial years. For sub-funds / share classes launched or liquidated during the financial year, the corresponding annual return has not been calculated.

The historical performance is not an indication of future results. The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares of the SICAV.

The accompanying notes are an integral part of these financial statements.

^{*} Minor differences may arise due to rounding in the calculation of percentages.

Industrial and geographical classification of investments

as at 31st December 2022

Industrial classification

(in percentage of net assets)

Non-cyclical consumer goods	22.24 %
Healthcare	15.53 %
Cyclical consumer goods	15.25 %
Raw materials	15.15 %
Energy	10.19 %
Technologies	8.46 %
Financials	7.79 %
Industrials	4.71 %
Total	99.32 %

Industrial and geographical classification of investments as at 31st December 2022

Geographical classification

(by domicile of the issuer) (in percentage of net assets)

France	40.47 %
Switzerland	23.47 %
Germany	15.80 %
Belgium	10.00 %
United Kingdom	5.83 %
The Netherlands	3.75 %
Total	99.32 %

Notes to the financial statements

as at 31st December 2022

Note 1 - General Information

ARCHEA FUND (the "SICAV") is an open-ended investment company (*Société d'Investissement à Capital Variable* - SICAV) governed by Luxembourg law. The SICAV is subject to Part I of the amended law of 17th December 2010 (the part incorporating the provisions of European Directive 2009/65/EC as amended) on Undertakings for Collective Investment ("UCI").

ARCHEA FUND was created as PATRIMOINE GLOBAL HEDGE SICAV for an indefinite term on 14th August 1998. The legal notice regarding the issue of shares has been filed with the Luxembourg Trade and Companies Registry.

The shares' NAV, issue price, redemption price and conversion price are available from the SICAV's registered office on each business day.

The following documents are made available to the public:

- the SICAV's issue prospectus and Articles of Association,
- the Key Information,
- the SICAV's financial reports.

A copy of the agreements entered into with the Depositary, Central Administration, Investment Managers and Investment Advisors may be obtained free of charge from the SICAV's registered office.

The complaints handling procedure as provided for by CSSF Regulation on out-of-court complaint resolution is available on request from the SICAV's registered office.

Note 2 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the SICAV are prepared in accordance with the legal and regulatory provisions on Undertakings for Collective Investment in force in Luxembourg and with generally accepted accounting principles in Luxembourg. The financial statements of the SICAV have been prepared on a going concern basis.

b) Valuation of assets

The value of cash in hand or on deposit, bills and notes payable at sight and accounts receivable, prepaid expenses, dividends and interest announced or due for payment and not yet collected is made up of the nominal value of such assets, unless it appears unlikely that such a value can be collected; in the latter instance the value will be determined by deducting such an amount as the SICAV considers appropriate with a view to reflecting the real value of those assets.

The value of all marketable securities and money market instruments listed or traded on a stock exchange is determined according to their most recent available price.

The value of all marketable securities and money market instruments traded on another regulated market that operates regularly and is recognised and open to the public is determined according to their most recent available price.

The value of the securities representing any Undertaking for Collective Investment is determined in accordance with the most recent official Net Asset Value per share or according to the most recent estimated Net Asset Value if the latter is more recent than the official Net Asset Value, provided that the SICAV is confident that the valuation method used for that estimation is consistent with that used for calculating the official Net Asset Value.

Notes to the financial statements (continued)

as at 31st December 2022

To the extent that the marketable securities in the portfolio on the Valuation Day are not listed or traded on a stock exchange or on another regulated market that operates regularly and is recognised and open to the public or in the case where, for the securities listed and traded on a stock exchange or such other market, the price determined according to the second or third paragraphs is not representative of the real value of these securities, these are valued on the basis of the probable realisable value, which will be estimated prudently and in good faith.

c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by each Sub-Fund that are denominated in a currency other than the reference currency of the Sub-Fund is converted to this currency at the exchange rate prevailing on the date of purchase.

d) Net realised gain/(loss) on securities portfolio

The realised gains and losses on securities portfolio are calculated on the basis of the average acquisition cost. The realised gains and losses on securities portfolio are recorded net in the statement of operations and other changes in net assets.

e) Investment portfolio income

Dividend income is recorded at the ex-date, net of any withholding tax.

Interest income accrued is recorded, net of any withholding tax.

f) Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contracts. Unrealised gains or losses are recorded in the statement of net assets. Net variation of the unrealised gains or losses and net realised gains or losses are recorded in the statement of operations and other changes in net assets.

g) Valuation of futures contracts

Open futures contracts are valued at their last settlement price or at the closing price on the stock exchanges or regulated markets.

Unrealised gains or losses are recognised in the statement of net assets unless they are settled daily by the receipt/payment of an amount corresponding to the daily increase/decrease in the market value of each open futures contract. This amount is recognised under the "Cash at bank" or "Other liquid assets" headings in the statement of net assets.

Net change in unrealised gains or losses and net realised gains or losses are recorded in the statement of operations and other changes in net assets.

Unrealised gains or losses already settled by the receipt/payment of an amount are regarded as unrealised gains or losses in the statement of operations and other changes in net assets until the expiry of the futures contract.

h) Amortisation of formation expenses

The SICAV's formation expenses were amortised over the first five years following its inception.

Notes to the financial statements (continued)

as at 31st December 2022

i) Foreign currency translation

Cash at banks, other net assets and liabilities and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the financial statements. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Net realised gains or losses on foreign exchange are recorded in the statement of operations and other changes in net assets.

i) Combined financial statements

The SICAV's combined financial statements are expressed in euros and are equal to the sum of the corresponding items in the financial statements of each Sub-Fund converted into this currency at the exchange rate prevailing at the date of the financial statements.

1 EUR = 1.0674500 USD US Dollar

k) Revaluation difference

The item "Revaluation difference" in the combined statement of operations and other changes in net assets represents the valuation difference of the net assets of the Sub-Funds at the beginning of the year with the exchange rate applicable at the date of the financial statements.

I) Payable on treasury transactions

The item "Payable on treasury transactions" comprises new time deposits, maturities of loans, foreign exchange transactions or forward foreign exchange transactions not yet disclosed under the item "Cash at banks".

m) Transaction fees

Transaction costs, which are disclosed under the "Transaction fees" heading within expenses in the statement of operations and other changes in net assets, are composed mainly of brokerage fees borne by the SICAV and transaction liquidation costs paid to the custodian as well as costs relating to transactions in financial instruments and derivatives and of fees relating to term deposits.

Transaction costs on bonds and sukuk are included in the cost of the investments.

n) Subscription and redemption commissions of the underlying funds

Transaction costs incurred by counterparties for the purchase and sale of Undertakings for Collective Investment are disclosed under the item " Subscription and redemption commissions of the underlying funds ".

o) Other receivables

The item "Other receivables s" disclosed in the statement of net assets include margin accounts on futures contracts reflecting to daily value variations.

Note 3 - Management and performance fees

Pursuant to a service agreement, on 15th November 2007 the SICAV appointed, with effect from 25th November 2007, BELLATRIX ASSET MANAGEMENT S.A. to act as its Management Company and to provide management, administration and marketing services. The company is authorised as a Management Company in accordance with the provisions of Chapter 15 of the amended law of

Notes to the financial statements (continued)

as at 31st December 2022

17th December 2010 on Undertakings for Collective Investment, in compliance with Directive 2001/107/EC.

The management fee is payable quarterly on the basis of the Sub-Fund's average net assets during the quarter in question. Fees are paid in the month following the quarter in question and are calculated as follows:

	Class B1		Class	Class B2 Class A1		ss A1	Class BI		Class J1	
	Effective	Maximum	Effectiv	Maximu	Effectiv	Maximu	Effectiv	Maximu	Effectiv	Maximu
	rate	rate	e Rate	m Rate	e Rate	m Rate	e Rate	m Rate	e Rate	m Rate
ARCHEA FUND - PATRIMOINE	1.50% p.a.	Max 1.50% p.a.	1.50% p.a.	Max 1.50% p.a.	N/A	N/A	N/A	N/A	N/A	N/A
ARCHEA FUND - NORDAM	1.50% p.a.	Max 1.50% p.a.	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
ARCHEA FUND - EUROPE	1.50% p.a.	Max 1.50% p.a.	N/A	N/A	N/A	N/A	1.00%p.a	Max 1.00% p.a.	0.50%p.a	Max 0.50% p.a.
ARCHEA FUND - BOND SELECTION	0.85% p.a.	Max 0.85% p.a.	N/A	N/A	0.85% p.a.	Max 0.85% p.a.	N/A	N/A	N/A	N/A
ARCHEA FUND - GLOBIQ	2.00% p.a.	Max 2.00% p.a.	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
ARCHEA FUND - SPECTRUM	1.35% p.a.	Max 1.35% p.a.	N/A	N/A	N/A	N/A	0.50% p.a.	Max 0.50% p.a.	N/A	N/A
ARCHEA FUND - ASIA INNOVATORS	1.75% p.a.	Max 1.75% p.a.	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

In addition, the ARCHEA FUND - GLOBIQ Sub-Fund pays a performance fee.

The performance fee is 20% of the increase in the net asset value per share, i.e. the positive difference between the last NAV calculated and the highest NAV of all preceding NAVs (the "High Water Mark"), multiplied by the number of shares outstanding on the day the latest NAV was calculated. A provision will be recognised in respect of this performance fee on each Valuation Day and it will be regarded as accruing to the investment manager.

The performance fee is payable quarterly in the month following the end of the quarter in question.

The ARCHEA FUND - SPECTRUM Sub-Fund pays a performance fee.

The sub-fund's performance is equivalent, for each relevant share class, to the difference between the NAV per share at the end of the current quarter ("Final NAV"), and the NAV per share at the end of the previous quarter ("Initial NAV"), expressed in % (the "Performance"). For the first quarter in which the performance fee is applied, the initial NAV is equivalent to the initial subscription price of the share class.

The hurdle rate is set, for each relevant share class, at the Euribor rate 3 months + 2%, to be calculated on a prorated basis exceeding the initial NAV per share (NAV from the end of the previous quarter).

Notes to the financial statements (continued)

as at 31st December 2022

Provision shall be made for this performance fee on each valuation day. If the NAV per share decreases during the calculation period, the provisions made for this performance fee will be reduced accordingly. If these provisions are reduced to zero, no performance fee will be due.

For each quarter in which the sub-fund's performance exceeds the hurdle rate, calculated on a pro rata basis (the "Outperformance"), a fee based on 10% of the outperformance is due in accordance with the conditions established in Paragraph 4. The Outperformance Fee is due only in the event that (1) the performance exceeds the hurdle rate, calculated on a pro rata basis, and (2) the Final NAV per share exceeds the highest recorded Final NAV per share (High Watermark principle); in this case, the Outperformance Fee is applied to the difference between the Final NAV per share and the High Watermark Final NAV.

In the event that the Performance exceeds the Hurdle Rate calculated on a pro rata temporis basis, and the Final NAV per share is lower than the highest historical Final NAV per share, no outperformance fee is applied. In the event that the Performance does not exceed the Hurdle Rate calculated on a pro rata temporis basis, and the Final NAV per share is higher than the highest historical Final NAV per share, no outperformance fee is applied. In the event that the Performance does not exceed the Hurdle Rate calculated on a pro rata temporis basis, and the Final NAV per share is lower than the highest historical Final NAV per share, no outperformance fee is applied.

The performance fee is payable quarterly in the month following the end of the quarter in question.

At the date of the financial statements, no performance fee was recorded for the SICAV.

Note 4 - Management fee paid to target funds

The management fee paid to the target funds in which the SICAV invests is a maximum of 2.50% p.a., calculated on the net assets invested in the target fund concerned.

Note 5 - Depositary fee and central administration costs

BANQUE DE LUXEMBOURG, in connection with its depositary and central administration functions, receives an indicative fee payable quarterly based on the Sub-Fund's average net assets during the quarter in question.

The indicative rate of the depositary fee is 0.20% per annum based on each Sub-Fund's net assets. This indicative rate may vary in accordance with the value of the net assets of the Sub-Funds in question.

The central administration fee is a maximum of 0.80% per annum for the Sub-Fund ARCHEA FUND - ASIA INNOVATORS and 0.30% per annum for other Sub-Funds, based on each Sub-Fund's average net assets with a minimum not exceeding EUR 20,000 p.a. However, depending on the Sub-Funds' net assets and the number of transactions carried out, the central administration fees may be lower or higher that this rate.

The "Central administration costs" item disclosed in the statement of operations and other changes in net assets is composed mainly of administrative agent fees.

Notes to the financial statements (continued)

as at 31st December 2022

Note 6 - Fees levied by the SICAV

Details are disclosed in the Key Information for Investors of the fees actually paid by the SICAV during a particular year. These fees cover, among others, the management fee, the Depositary fee and the central administration fee payable by the SICAV

Note 7 - Fees on the issue, redemption and conversion of shares

A subscription fee may be paid to the Management Company and/or placement agents when shares in the SICAV's Sub-Funds are subscribed for.

This fee is a maximum of 1.50% of the amount subscribed in the case of the ARCHEA FUND - PATRIMOINE, ARCHEA FUND - NORDAM, ARCHEA FUND - EUROPE, ARCHEA FUND - GLOBIQ and ARCHEA FUND - SPECTRUM, ARCHEA FUND - ASIA INNOVATORS Sub-Funds and a maximum of 1.00% of the amount subscribed in the case of the ARCHEA FUND - BOND SELECTION Sub-Fund.

No redemption or conversion fees are charged to investors on the redemption or conversion of shares in the SICAV's Sub-Funds.

Note 8 - Subscription duty ("taxe d'abonnement")

The SICAV is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the SICAV is subject to an annual subscription duty ("taxe d'abonnement") of 0.05% on its net assets, which is calculated and payable quarterly on the basis of the net assets at the end of each quarter.

Pursuant to Article 175 a) of the amended law of 17th December 2010, the portion of the net assets invested in Undertakings for Collective Investment already subject to the "taxe d'abonnement" are exempt from this tax.

Note 9 - Belgian annual tax

The Belgian regulations (*Livre II bis* of the Belgian Inheritance Tax Code) require Undertakings for Collective Investment authorised to market their funds to the public in Belgium to pay an annual tax. This tax is levied at the rate of 0.0925% on the total, as at 31st December of the preceding year, of the net amounts invested in Belgium once the undertakings are registered with the Belgian Financial Services and Markets Authority ("FSMA").

The SICAV pays the tax on 31st March each year at the latest.

This tax is recognised under the "Other taxes" heading in the statement of operations and other changes in net assets.

Note 10 - Changes in the composition of the investments

Details of changes in the composition of the investments during the reference period for the financial statements are available free of charge from the SICAV's registered office and the registered office of the representative in Switzerland.

Notes to the financial statements (continued)

as at 31st December 2022

Note 11 - Forward foreign exchange contracts

As at 31st December 2022, the SICAV is not committed in any forward foreign exchange contract.

Note 13 - Futures contracts

As at 31st December 2022, the Sub-Fund detailed below had entered into the following futures contracts:

ARCHEA FUN	ID - GLOBIQ				
	Number of contracts	Denomination	Currency	Exposure (in EUR)	Unrealised result (in EUR)

									Impact total	-2.16%

Note 15 - Subsequent events

There are no significant subsequent events.

Additional information (unaudited)

as at 31st December 2022

1 - Risk management

As required by Circular CSSF 11/512, the Board of Directors of the SICAV needs to determine the global risk exposure of the SICAV by applying either the commitment approach or the VaR ("Value at Risk") approach.

In terms of risk management, the Board of Directors of the SICAV decided to adopt the commitment approach as a method of determining the global exposure.

2 - Remuneration

Amounts paid by UCITS managed by the management company for the year 2018 (31st December 2017 – 31st December 2018) :

Total remuneration paid by the UCITS EUR 0.493 million Whose fixed remuneration EUR 0.473 million Whose variable remuneration EUR 0.02 million

Number of beneficiaries 5
Whose members of management and risk takers 2
Carried interest paid by UCITS N/A

3 - Information concerning the transparency of securities financing transactions and of reuse of cash collateral (regulation EU 2015/2365, hereafter "SFTR")

During the reporting period, the SICAV did not engage in transactions which are subject to the publication requirements of SFTR. Accordingly, no information concerning the transparency of securities financing transactions and of reuse of cash collateral should be reported.

4 - Total Expense Ratio ("TER") (unaudited)

The TER disclosed in the section entitled "Statistical information" for the Sub-Funds where the distribution in Switzerland is approved is calculated in accordance with the Guidelines on the calculation and disclosure of the TER of collective investment schemes issued on 16th May 2008 by the Swiss Funds & Asset Management Association ("SFAMA"), as amended on 20th April 2015. The Asset Management Platform (AMP) Switzerland and the Swiss Funds and Asset Management Association SFAMA merged in autumn 2020 to form the Asset Management Association Switzerland,

The TER is calculated for the last 12 months preceding the date of these financial statements.

Transaction fees are not taken into account in the calculation of the TER.

If a SICAV invests at least 10% of its net assets in other funds which publish a TER, a synthetic TER of the fund of funds is calculated as of the closing date of the financial year or the end of the first half of the financial year. This corresponds to the sum of the proportional TERs of the various target funds, weighted on the basis of their share of the total net assets of the fund at the reference date, the subscription and redemption fees of the target funds actually paid and the TER of the fund of funds minus the retrocessions received from the target funds during the reporting period. The synthetic TER is calculated on the basis of the information available at the time this document is prepared.

Additional information (unaudited) (continued)

as at 31st December 2022

If a performance fee is stipulated and has been calculated, the TER disclosed includes said fee. In addition, the performance fee ratio is calculated as a percentage of the average net assets for the last 12 months preceding the date of this report.

5 - Sustainability-related disclosures

In accordance with the requirements of the EU Regulations 2019/2088 and of the Council of 27th November 2019 on sustainability -related disclosures in the financial services sector (the "SFDR") as amended, the SICAV is categorised under SFDR Article 6.

The investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities.
