### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

	If you exit after 1 year	If you exit after 4 years
<b>Total costs</b>	354 EUR	1,107 EUR
